

# UDI-GIGAMED

GIGA Doctorate School  
October 5th, 2021  
Welcome Newcomers

# UDI-GIGAMED

- UDI = Unité Délocalisée d'Informatique = Local IT Service
  - Manages local computer park and network needs
  - 1st level helpdesk
  - Deploys Institution softwares
  - Administrative software development
- **UDI-GIGAMED**
  - 4 agents (1 currently missing) + manager
  - ~ 1000 people (FACMED) + 600 (GIGA) + 200 (CHU Liège)
  - ~ 3000 devices
- **Single Point of Contact** : if necessary, we relay !

# UDI-GIGAMED

- **1st level helpdesk** ⇒ **UDI-GIGAMED**
  - ANY question about computers and computing
  - Help with hardware (choosing, buying, delivery, repairs...) and O.S. : Windows, macOS, Linux
  - Help with ULiège softwares (installation and basic use) : Dox, Zimbra, Gitlab, MS-Office 365, SAP, SAS, AV, Mathematica, Matlab...
  - Computers in meeting rooms, classrooms, lecture halls...
  - Computer lifecycle (from buying to disposal) and insurance (theft and damage)
- **Scientific level helpdesk** ⇒ **IT GIGA**
  - Bioinformatics group
    - Mass-storage usage
    - Grid Computing Gurus
  - GIGA Specific softwares : Krino, Xenia
- **Institution level helpdesk** ⇒ **SEGI**

# ULiège IT : SEGI

- **SErvice Général d'Informatique**
  - Certifications : ISO 9001, ISO27001, PRINCE2
  - micro-computing, grid-computing, multimedia, telephony, institution servers, virtual servers platform, Internet and Intranet services, institution administrative applications, videoconferencing, posters and mass printing...
  - Institution softwares : Dox, Zimbra, Horizon, Unicast, Unicast Live, CELCAT, JCMS, Gitlab, MS-Office 365, SAP, SAS, JMP, Gaussian, Siemens, Mathematica, Matlab...
  - Computer networks : Wi-Fi (+1500 AP) and wired (10Gb, 1Gb, 100Mb)
    - The network is managed by SEGI only : other networks are forbidden (local switches or routers, Time Capsule, ...)
    - **Do not connect to other networks ! Wi-Fi : use « ULiège » or « Eduroam »**
  - VPN « F5 Big IP » : be anywhere at work ! ⇒ <https://vpn.uliege.be>
    - Enlarges ULiège network to include your computer, wherever it is.
    - **Do not use « free » unsafe Wi-Fi or wired networks for critical apps or data, without using the ULiège VPN !**

# ULiège IT : Zimbra

- Zimbra : e-mail, calendar, contacts and tasks (students : only e-mail)
  - Web interface (<https://mail.ulg.ac.be>), classic applications (Outlook, Thunderbird...), smartphones and tablets
  - Do not use « free » mailboxes (hotmail, gmail...) for critical communications or data !

# ULiège IT : Dox

- Cloud storage based on ownCloud (staff only)
  - Drop-in replacement for iCloud, Dropbox, OneDrive, Google Drive...
  - 100GB
  - Security and confidentiality : managed by SEGI
  - Sharing and collaboration (online office)
  - Use thru web browser, computer O.S. integration or smartphone/tablet
  - **Do not use « free » cloud storage for critical data !**
- Since 2021-2022 : OneDrive (comes with Office 365)
  - 1TB for everybody ! Youhou ! (really ?)

# ULiège IT : Gitlab

- 2 development forges with backup, synchronisation, CI/CD
  - gitlab.uliege.be : available inside and outside ULiège for collaborations with external developers
  - gitlab-priv.uliege.be : local to ULiège only, but with increased security for critical developments
- **Do not use « free » forges for critical developments !**

# Global WarNing !!

DO NOT USE « FREE » ANYTHING !!

- 1) if it's free, that's because YOU are the product !
- 2) if you deal with critical data about people ⇒ GDPR

# ULiège IT : Grid-Computing

- NIC5 ( $\geq$  Jan/2021)
  - 70 nodes with two 32-cores AMD EPYC 7542 at 2.9 GHz and 256 GB of RAM, 3 nodes with 1 TB of RAM, 50 TB /home NFS, 520 TB of fast BeeGFS /scratch and a 100 Gbps Infiniband interconnect, for a total of 4672 cores
  - CentOS8, Slurm, EasyBuild
- NIC4 (deprecated, no new accounts)
  - 128 compute nodes, two 8-cores Intel E5-2650 processors at 2.0 GHz, 64 GB of RAM, 144 TB parallel filesystem, 70 TB NFS server, 20GB per user
  - Linux, Slurm, OpenMP, MPI, BLAS, LAPACK, R, Octave, Python, etc.
- NIC5 is one of CÉCI (Consortium des Équipements de Calcul Intensif) 5 clusters
- 2 Linux clusters for Matlab and SAS
- cluster.calc.priv : cluster for GIGA (24/30) and CHU (6/30)
  - 816 cores, 5.77 TB RAM

# ULiège IT : MassStorage

- Once a GIGA initiative, now a ULiège device
  - 2PB on disk, 5PB on tape (Backup and Archive)
  - HSM (stub on disk, data on tape), Archive (on-demand / if needed)
  - Access to mass data producers thru 10Gb network
  - 100GB home directory (GIGA staff only)
  - Access thru NFS, CIFS or SFTP
  - Versionning : 25 versions. Inactives : max 4 weeks
